

PIYUSH DEWANGAN

8718816256

Java Backend Engineer | Spring Boot, AI Integration, REST APIs & Cloud Technologies

dewanganpiyush999@gmail.com

Backend Software Engineer with 1.6+ years of experience in designing and developing scalable, high-performance Java applications using Java, Spring Boot, Hibernate/JPA, MySQL, RESTful APIs, and Microservices principles, delivering backend solutions for enterprise applications.

Bengaluru, INDIA

www.linkedin.com/in/dewanganpiyush

PROFILE SUMMARY

- API Development & Performance Optimization Specialist**, experienced in building secure **REST APIs**, implementing **AI-enabled backend functionalities**, optimizing application performance using **Redis caching**, **ElasticSearch**, and database optimization techniques to improve scalability, response time, and user experience.
- AI & Modern Engineering Enthusiast**, with hands-on experience integrating **Generative AI solutions**, **LLaMA3**, **Retrieval-Augmented Generation (RAG)** pipelines, intelligent document processing, and backend services, complemented by expertise in **CI/CD**, **Jenkins**, **Argo CD**, **AWS**, **Git** & Agile development methodologies.
- Quality-Driven Software Developer**, proficient in **production support**, **debugging**, **root cause analysis**, **JUnit testing**, **secure payment integrations**, and **DevOps-driven delivery**, with strong foundations in **Data Structures & Algorithms**, **Low-Level Design**, and a passion for building scalable, maintainable, and business-centric software solutions.

CAREER TIMELINE

Mar'25 – Aug'25 | Health Catalyst |
Software Engineering Intern

Sep'25 – Present | Arivihan
Technologies Pvt. Ltd. | Associate
Software Engineer

WORK EXPERIENCE

Sep'25 – Present | Arivihan Technologies Pvt. Ltd. | Associate Software Engineer

Key Achievements – Backend Development, REST APIs & AI Integration

- Backend Application Development:** Developed scalable backend modules and RESTful APIs using Java, Spring Boot, Hibernate/JPA & MySQL for enterprise platforms.
- AI Feature Development:** Built backend services for AI-powered capabilities including video interactivity, chat history management & intelligent content integration.
- Performance & Data Optimization:** Enhanced data ingestion, Excel upload validation & error handling while improving application reliability and user experience.
- Production Support & DevOps:** Resolved production issues through root cause analysis, managed API testing with Postman & Swagger, and supported CI/CD deployments using Jenkins and Argo CD.

Mar'25 – Aug'25 | Health Catalyst | Software Engineering Intern

Key Achievements – API Development, Testing & Database Management

- REST API Development:** Developed Spring Boot and Hibernate/JPA-based RESTful APIs supporting CRUD operations and backend data management.
- Quality Engineering & Database Control:** Improved application reliability through JUnit testing, authentication debugging & Liquibase-based database version management.

PROJECTS

E-commerce Application: Designed and deployed a scalable e-commerce platform with secure payments, Redis-based caching, and Elasticsearch-powered search, improving API response time from ~500ms to ~50ms. | **Tech Stack:** Java, Spring Boot, Spring Data JPA, MySQL, Redis, Elasticsearch, AWS, Stripe, OAuth 2.0

AI-Powered Chatbot with Llama3: Built an AI-powered chatbot with a RAG pipeline for intelligent document-based Q&A, featuring modular REST APIs, chat history management, and PDF/text ingestion. | **Tech Stack:** LLaMA3 (Ollama), RAG, Java, Spring Boot, REST APIs, PDF Processing.

CORE COMPETENCIES

Backend System Architecture

API Lifecycle Management

Data Validation Techniques

Performance Tuning Strategies

Cloud Deployment Methodologies

Software Development Life Cycle (SDLC)

Agile Development Practices

Security Protocols in Web Services

Batch Processing Frameworks

Continuous Integration Processes

TECHNICAL SKILLS

- Programming Languages:** Java, SQL, Python
- Backend Frameworks:** Spring Boot, Spring Framework, Hibernate, JPA
- Databases:** MySQL, DynamoDB, Redis, ClickHouse
- API Development:** RESTful APIs, Swagger, Postman
- Search & Caching:** Elasticsearch, Redis
- Testing:** JUnit
- DevOps & CI/CD:** Jenkins, Argo CD, Maven, Git
- Cloud:** AWS
- Development Concepts:** Data Structures & Algorithms (DSA), Low-Level Design (LLD), Microservices, Backend Development
- Tools & Technologies:** Git, Maven, Postman, Swagger, Liquibase, OAuth 2.0

CERTIFICATIONS

- Java
- Databases and SQL
- Backend (Java Spring/Spring Boot)
- Spring & Hibernate for Beginners (includes Spring Boot)
- Data Structures and Algorithms
- Low Level Design

EDUCATION

- Bachelor of Technology (B.Tech), Electrical Engineering** - Chhattisgarh Swami Vivekanand Technical University, Bhilai, 2021
